

## Nature Center & Serpentarium

The Okefenokee Swamp Park Nature Center is home to our Serpentarium, Bear Exhibit and daily “Eye on Nature” Shows.

The family will enjoy touching and guessing what animals match what hides in our “What Am I?” exhibit.

The Nature Center is home to family unit of four black bears, which can be observed from our Bear Observatory Room.

You will never know what you might see at the Nature Center. Seen above is “Meathead” playing in the water trough.

The Serpentarium houses several species of snakes found in the swamp. Seen above is a Cottonmouth.

Mother Nature is always happening, even in the Nature Center. Seen above is our Eastern Diamondback shedding.

## Nature Center & Serpentarium

One of the features of our Nature Center is the indoor boardwalk in the Serpentarium room.

In addition to the snakes housed in the Serpentarium, there are also baby alligators and turtles.

Several times daily our Animal Keepers give our "Eye on Nature" shows featuring live snakes, turtles and baby alligators.

Also found inside the Nature Center at the Okefenokee Swamp Park is our museum exhibit honoring Walt Kelly and Pogo.

Seen above is one of our two Animal Keepers, Mary Turner.

Seen above is the second of our two Animal Keepers, Chris Adams.
